FRANKIE'S FLUENT PHONICS

Remember Frankie (Feb Newsletter) a 7 year old bright, intelligent, articulate boy immersed in books from birth? I was shocked when I heard he was not making progress at school. On assessment, I found his phonic skills were weak and his reading was well below average for his age.

I am pleased to report that Frankie has made amazing progress after 4 months and his reading age has increased from 5.5 years to an incredible 9 years. This was a springboard for his self esteem and confidence to soar. He is now a FLUENT READER and uses phonics to unlock unfamiliar words. It's just wonderful to witness such progress. THIS IS THE RIGHT OF EVERY CHILD.
